Foreword ..... *xiii*
About the Author ..... *xv*
About the Technical Reviewer ..... *xvi*
About the Foreword Writer ..... *xvii*
Acknowledgments ..... *xix*
Introduction ..... *xxi*

Part One: Introduction *1*

Chapter 1: Introduction to PL/SQL *3*

Advantages of Using PL/SQL *5*
Building Blocks of PL/SQL *7*
Procedural Constructs in PL/SQL *10*
PL/SQL Environments *15*
New Features of PL/SQL 9*i* *17*
Summary *30*

Part Two: Non-Object-Oriented Features in PL/SQL 9i *31*

Chapter 2: Cursors *33*

Introducing Cursors *33*
Cursor Variables *65*
Cursor Expressions *80*
Summary *94*

Chapter 3: PL/SQL Records and Index-by Tables 95

Records 97
Index-by Tables 114
Summary 135

Chapter 4: Error Message Handling 137

PL/SQL Exceptions: Types and Definition 137
Handling PL/SQL Exceptions 143
User-Defined PL/SQL Error Messages 166
Tips for PL/SQL Error Message and Exception Handling 172
Summary 173

Chapter 5: Stored Subprograms (Procedures, Functions, and Packages) 175

Creating and Using Procedures and Functions 177
PL/SQL Packages 201
Subprograms Returning Resultsets 217
Using Stored Functions in SQL Statements 220
Parameter Passing by Reference 231
Definer and Invoker Rights 236
Additional Package Features 242
Summary 253

Chapter 6: Database Triggers 255

PL/SQL Triggers: Types and Definition 256
Read-Only Views, Updateable Views, and INSTEAD-OF Triggers 275
New Database Triggers 282
Summary 290

Chapter 7: Native Dynamic SQL and Dynamic PL/SQL *291*

DBMS_SQL vs. Native Dynamic SQL *292*
Native Dynamic SQL Statements *295*
Dynamic DDL *296*
Dynamic SELECTS *300*
Dynamic INSERT, UPDATE, and DELETE *307*
Using Bind Variables *308*
Dynamic PL/SQL *310*
Exception Handling in Native Dynamic SQL *312*
Native Dynamic SQL and Objects *313*
Summary *313*

Chapter 8: Autonomous Transactions *315*

Transaction Management Prior to Autonomous Transactions *315*
Autonomous Transactions: Definition and Use *316*
Summary *331*

Chapter 9: Native Bulk Binds *333*

Bulk DML *334*
Bulk Query *346*
Bulk Dynamic SQL *354*
Summary *357*

Part Three: Object-Oriented Features in PL/SQL 9i *359*

Chapter 10: The World of Objects *361*

Object Types and Object Tables *362*
Type Inheritance *399*
Dynamic Method Dispatch *409*
Type Evolution *411*

Java Object Storage: SQL Types of Language Java or SQLJ Object Types 417
User-Defined Operators 423
Summary 431

Chapter 11: Collections (VARRAYS and Nested Tables) 433

Creating and Using Collections in PL/SQL 433
Table Functions 464
Multilevel Collections 473
Summary 478

Chapter 12: Large Objects 479

LOBs Overview 479
BLOBs 480
CLOBs 482
BFILEs 485
DBMS_LOB Package 487
TO_LOB Function 502
Summary 505

Part Four: PL/SQL with Java and the Web 507

Chapter 13: Floating in Java 509

Using Java in the Database 509
PL/SQL Calling Java: Java Stored Procedures 511
Creating Java Stored Procedures 513
Executing Java Stored Procedures 544
Java Stored Procedures Returning Resultsets 549
Summary 554

Chapter 14: PL/SQL and the Web *555*

Using HTML in PL/SQL *556*
PL/SQL in HTML: PL/SQL Server Pages *573*
Building an Application for the Web Using PL/SQL *579*
Sending E-mail Using PL/SQL *589*
Summary *593*

Part Five: PL/SQL Performance and Standards *595*

Chapter 15: Performance Considerations *597*

Some PL/SQL Tuning Procedures *598*
Native Compilation of PL/SQL Code *599*
Parameter Passing by Reference *602*
Using Native Dynamic SQL *604*
Using Bulk Binds *605*
Using the RETURNING Clause *607*
Using Object Types and Collections *608*
Using Pipelined Table Functions *608*
Summary *609*

Chapter 16: PL/SQL Coding Standards *611*

Coding Standards *612*
Summary *627*

Part Six: Appendix *629*

Appendix A: Case Studies and Schema Objects *631*

Organizational Hierarchy System *632*
Order Entry Application System *635*

Index *637*
